CONSOLIDATION ORDER

The Court has reviewed the pleadings and has observed that the same patents are asserted in all of these cases. Given that there are common questions of law and fact, at least with respect to claim construction, and in order to prevent conflicting rulings and to avoid unnecessary cost and delay, the Court hereby consolidates the cases for pretrial purposes only, with Case No. 2:13-CV-484 designated as the lead case. All future filings must be made in the lead case until this consolidation order is vacated.

SIGNED this 4th day of October, 2013.

ROY S. PAYNE
UNITED STATES MAGISTRATE JUDGE
